

Medical Writer

OUR VISION

We aspire to be the premier strategy and competitive intelligence consulting firm in the life sciences industry delivering actionable insights and recommendations to our clients that are essential for decision making, strategy development, and execution.

OUR VALUE

Molekule Consulting is a proactive and dedicated partner that leverages its industry leading CI expertise, deep area knowledge, and its extensive global network to provide world-class competitive intelligence and strategy services.

OUR STORY

Molekule was incorporated with the notion that “good” and the “status quo” were inadequate. Born out of a vision to create a firm combining an ethos of strategic & actionable competitive insight with industry leading dedication to clients, Molekule Consulting was founded in 2012 by David Alderman.

In May 2022, Chris Stevenson, a biopharmaceutical industry leader with a track record of leading and developing businesses built on strong client service and strategic insight, joined Molekule Consulting as Managing Director, Europe. Chris is working closely with the existing Molekule Consulting leadership team to build an E.U.-based team that will support and develop the existing reputation and services from Molekule as the firm continues U.S., India, and Worldwide hiring and recruitment.

Molekule seeks to align intelligence outcomes, focus results, and enable our client partners to “win” in a highly dynamic and competitive environment. Molekule is one of the few strategy consultancies dedicated solely to the CI space in the biopharmaceutical sector.

RESPONSIBILITIES

- Serve as editorial lead on deliverable documents and provide writing/editing expertise ensuring successful preparation of high-quality submission/presentation-ready documents.
- Edit commercial and clinical content with an emphasis on capturing and revising inconsistencies and inaccuracies.
- Conduct review meetings with teams and independently resolve document content issues and questions arising from the writing/review process.
- Proficiently learn and apply therapeutic area knowledge, rapidly understand, and effectively incorporate new/complex information into deliverables.
- Perform/interpret literature searches as needed.

EXPERIENCE

- **Education:**
 - Minimum of bachelor’s degree required.
 - PhD, PharmD, Master’s Degree preferred.
 - Relevant professional certification/credential (e.g., CMPP, AMWA) is a plus.
